- 14.00 pm - 17.00 pm

Description

Pragmasoft is a company whose engineers firmly believe that they are the best value in the area of software development. We view each project as a challenge for our technical experts to create the best possible solution.

We utilize our multidisciplinary team of engineers to solve a wide range of problems in the areas of: Energy, Biometrics, Insurance, Medicine, Industrial Automation, Mobile, Interactive Marketing, ...

User Interface:

We know the importance of having a great user interface so the end-user has the best possible experience and gets the most out of the results. Our team can provide interfaces for Web, Desktop, Mobile or APP.

System Integration and real time communications:

From legacy system integration to real time communication protocols, our team can offer the necessary knowledge to resolve the most complex tasks. One aspect that sets Pragmasoft apart is our ability to program at the machine level up to the user interface. We specialize in projects that require equipment integration and getting real time data from the field and into the end users hands.

And did you know...

Pragmasoft developed the interactive marketing platform Wi2Play, winner of the national multimedia award.

Offer

User Interfaces - web / mobile

Our 'high-level' team can develop tailor made user interfaces, from Web interfaces to mobile APPs. Our National Multimedia Award proves we can imagine innovative software and develop it.

Keywords: Web   APPs   mobile   user interface
Cooperation Offered

1. Outsourcing co-operation
2. Technical co-operation

Offer

Real Time Communication Integration

Our team has been working over the past decade with real time communication protocols. From standard to legacy protocols, we can develop communication protocols, integrate equipment and retrieve data into monitoring systems. We have been working with multinational companies providing real time critical software that has been deployed all over the World.

Keywords: big data   communications   real time   integration
Cooperation Offered

1. Outsourcing co-operation
2. Technical co-operation
