Bilateral Meetings

- 09-00 am - 12.00 am

Description

The clinic has an experienced team of physicians and health experts to advise and assist all treatments.

In its first years, the clinic has invested mostly in dental practice, namely orthodontics, implants and odonto-pediatric treatments.

On the verge of celebrating 10 years, we are broadening the variety of medical and other health services provided, and are investing

in the offer of complementary services to customers that would like to take the opportunity to visit the north region.

Organization Type

Company

Request

Health tourism innovation

We would be interested in creating a health tourism cooperating network, so we would require collaboration with several partners such as travel agencies, transport providers, hotels, and access to financing specifically adapted to a micro-business

Keywords: Health tourism micro-business cooperating network travel agencies transport providers hotels

Cooperation Requested

1. Investment/Financing
2. Technical co-operation
